Attached is the letter summarizing our meeting discussions/agreements with Siltronic. I'd appreciate getting your comments in time to route this letter via e-mail to Siltronic tomorrow early-mid afternoon.

<<Lcd-Siltronic-Feb1mtgsmry.doc>>

The letter discusses the change in direction of source control work at the site (i.e., focus on uplands and pilot study of enhanced bioremediation) due to Siltronic desire to perform the work within a preferred timeframe.

I've noted that both EPA and DEQ agree with this approach.

Thanks in advance for your time in reviewing the document, and don't hesitate to contact me with questions.

Dana
